6. edition – July 2026

Welcome

to Agro Food Park

Agro Food Park is the leading innovation environment for agriculture and food companies in Denmark, where operations, development, and the implementation of ideas go hand in hand. The environment brings together established companies and startups including our startup hub, Haystack.

Agro Food Park is the ideal location for innovative companies in the food and agriculture industries, with its strategic location in Eastern Jutland - home to a high concentration of food-related knowledge institutions, students in relevant fields, and industry jobs.

At Agro Food Park, around 100 companies and 1,500 employees are brought together in an environment that fosters collaboration, knowledge exchange, and strong professional networks across disciplines and areas of expertise.

Through this networking book, we aim to provide an overview of the companies based in Agro Food Park through short presentations. The book makes it easy to reach out to the network and identify relevant contacts. Each presentation introduces a contact person who is ready to connect and collaborate.

Enjoy the book!

Anne-Marie Hansen

Director

4H

Sarah Kristine Skou Andersen

Chief of Secretary

Email: sksa@4h.dk

www.4h.dk

Agro Food Park 15

4H is a Danish children and youth organisation focused on educating children in sustainability through activities related to food, nature, animals and creativity. It currently has 50 local branches run by volunteers and is a member-based organisation. The educational approach is based on children's democracy and learning by doing.

We help children become capable and independent young people who think critically and make sustainable choices. 4H's secretariat is located in Agro Food Park, from where we support the voluntary activities throughout the country.

Actief Hartmanns A/S

Helle Justenborg

Branch Manager

Email: Helle.justenborg@actief-hartmanns.dk

www.actief-hartmanns.dk

Agro Food Park 26

Actief Hartmanns is an HR consultancy company that provides services to help companies with short and long-term recruitment, talent attraction, employer branding, as well as HR and management consultancy.

The company has its Aarhus department located in Agro Food Park.

Agro Food Park

Anne-Marie Hansen

Director

Email: reception@agrofoodpark.dk

www.agrofoodpark.dk

Agro Food Park 13, 15, 26

Agro Food Park is the name of the area in which all the companies are located. It includes more than 100 companies and around 1700 employees. Agro Food Park team is responsible for running and maintaining the three buildings

with office rentals, supporting the network between companies and develop the whole area around the buildings. Agro Food Park also hosts several networking activities.

Akson Robotics

Albert Sonne Olesen

CEO

Email: aso@akson-robotics.dk

www.cropup.ai

Agro Food Park 13

Akson Robotics is the team behind CropUp, an AI platform for precision farming. CropUp turns drone images into accurate maps of weeds, crops, soil and field tracks, helping farmers and crop consultants make better decisions in the field. The maps can be converted into spot-spray files for

existing sprayers and exported to common terminal formats. CropUp is already helping 500+ farmers reduce chemical use by up to 90%, with average savings around 75% - lowering costs while supporting more sustainable farming.

AKV AmbA

Britha Kruse

Marketing Manager

Email: BKR@AKV.dk

www.AKV.dk

Agro Food Park 13

AKV is a producer of potato starch and protein to the global food, paper and feed industries. Their products are sold in more than 70 countries around the world. AKV is owned by 180+ farmers and converts around 340,000 tons of Danish potatoes per year.

AKV have chosen Agro Food Park to benefit from the knowledge and possibilities the different companies and Agro Food Park provides including the surroundings.

Alimenta

Anders Mikkelsen

Kundeansvarlig Danmark

Email: anders.mikkelsen@alimenta.no

www.alimenta.dk

Agro Food Park 13

Alimenta provides raw materials, spices, technical ingredients, and flavors to the Nordic food industry and are distributor for among others, IFF.

Alimenta has its own development team, available for both new product development and optimizing existing products.

Their production facility mixes ingredients and package blends in quantities starting from 10 grams and upwards, offering a diverse range of packaging solutions customized for both the food industry and retail.

Arla Foods

Sandra Irene Jørgensen

VP Innovation

Email: sajor@arlafoods.com

www.arla.com

Agro Food Park 19

Arla Foods is the 7th largest dairy company in the world and a cooperative owned by 7.765 dairy farmers (07/2024). Arla combines traditional craftsmanship and world-class technologies to ensure its products remain closer to nature, from farm to fridge.

Arla identified that locating a new centre in the Agro Food Park, would give them the opportunity to be an important part of a new “silicon valley” with focus on food innovation – and thus also be close to their collaborators in this area.

Asia Base

Anders Ravn Nielsen

Director of Research & Strategy

Email: arn@asiabaselaw.com

www.asiabase.com

Agro Food Park 13

Asia Base is a Danish business consultancy with its main activities located in China. Over the past 30 years they have helped foreign companies acquire, establish, and grow competitive profitable businesses in China, many of which are agro- and food related.

In 2008 Asia Base founded the stable-to-table project "Scandinavian Farms".

Asia Base Holding is located in Agro Food Park.

Au2mate

Jan Bendix

Sales Director

Email: jbn@au2mate.dk

www.au2mate.dk

Agro Food Park 26

Au2mate is an automation and industrial IT provider and are experts in this field. They are a project-based enterprise, striving to be the preferred partner in the process industry by delivering unique quality to their customers.

One of the reasons Au2mate have an office in Agro Food Park is the unique networking possibility within the Danish food sector as well as working in an inspiring and innovative office community.

Avlsforeningen Dansk Holstein

Nanna Hammershøj Christoffersen

Manager

Email: info@danskholstein.dk

www.danskholstein.dk

Agro Food Park 15

Danish Holstein is the breed association representing Holstein dairy farmers in Denmark.

Our mission is to support genetic progress, strengthen dairy herd performance, and promote the long-term sustainability and competitiveness of the dairy sector.

Through breeding initiatives, knowledge sharing, and industry collaboration, Danish Holstein connects farmers, advisors, researchers, and business partners with a shared interest in dairy cattle genetics and herd development. We work to ensure that Danish Holstein breeders have access to the latest knowledge, tools, and opportunities

to improve productivity, animal welfare, and profitability.

As part of Denmark's strong agricultural ecosystem, Danish Holstein plays an active role in promoting innovation and supporting the continued development of one of the world's most efficient dairy industries.

Located in Agro Food Park, we benefit from close collaboration with leading companies, organizations, and knowledge institutions across the agri-food sector. This unique environment creates valuable opportunities for networking, innovation, and partnerships that contribute to the future of dairy farming

Baltic Control

Søren Thimmer

Managing Director

Email: sth@balticcontrol.com

www.bccertification.com

Agro Food Park 13

Baltic Control® is an independent global provider of inspection, verification, testing and certification services. Founded in Aarhus in 1980, we operate in over 50 countries worldwide, supporting key sectors such as agriculture, logistics, energy, recycling and maritime transport.

We ensure quality, compliance and transparency across supply chains, supporting international trade and operations. As part of the Apave Group, we deliver reliable, flexible solutions aligned with international standards.

BASF

Grethe Thaysen, Senior Technical Sales

Manager Human-Nutrition

Email: grethe.thaysen@basf.com

www.basf.com

Agro Food Park 15

At BASF, we create chemistry for a sustainable future. Our ambition: We want to be the preferred chemical company to enable our customers' green transformation. We combine economic success with environmental protection and social responsibility. Around 108,000 employees in the BASF Group contribute to the success of our customers in nearly all sectors and almost every country in the world. Our portfolio comprises, as core businesses, the segments Chemicals,

Materials, Industrial Solutions, and Nutrition & Care; our standalone businesses are bundled in the segments Surface Technologies and Agricultural Solutions. BASF generated sales of around €60 billion in 2025.

Better Insect Solutions

Henrik Voigt

Managing Director

Email: : hvo@betterinsectolutions.com

www.betterinsectolutions.com

Agro Food Park 15

Better Insect Solutions (BIS) is the insect farming concept and solution hub of the Big Dutchman group, powered by the sister companies Big Dutchman, INNO+ and SKOV. Since 2020, BIS has been operating in the insect farming sector, bringing together the insect-optimized technology solutions and new product developments of the sister

companies ensuring that BIS today has a complete project solution for farming of black soldier fly based on in-house products and systems.

Biomass

Thomas Byriel

Project Manager

Email: tb@biomass.dk

www.biomass.dk

Agro Food Park 13

BioMass.dk buys and sells biomaterial for the creation of biogas. They are a part of the Danish Biogas Industry. Their purpose is to assist producers of sustainable biological byproducts/waste, by recycling the byproducts for green biogas energy. Biomass.dk has several storage facilities, to receive goods by truck or ship.

BioMass.dk is part of the incubator for start-ups in Agro Food Park, and they also have offices in other locations around Denmark.

Cath Mersh Communications

Cath Mersh

Consultant

Email: cath@mersh.dk

www.cathmershcommunications.dk

Agro Food Park 13

Cath Mersh is a journalist and communication consultant specialised in the agrifood sector.

Cath Mersh Communications supports companies and organizations with communication needs related to EU projects, branding campaigns, corporate sustainability and scientific papers.

Cath Mersh Communications work includes content for multiple channels, articles for trade press, reports, podcasts and editing of short videos.

CFOPEOPLE A/S

Rasmus Jerver

Partner & Founder

Email: rj@cfopeople.com

www.cfopeople.com

Agro Food Park 15

CFOPEOPLE specializes in emergency financial recruitment. They match your need quickly and precisely - whether it is an acute or longer-term need - within 10 working days - anywhere in Denmark.

Their services are divided into 4 categories: Interim Services, Recruiting, Try & Hire and Executive Search.

Together with their customers they identify needs and find the solution that fits best.

CM Food Consulting

Connie Mortensen

Owner & Food Safety Consultant

Email: connie.mortensen@cmfoodconsulting.dk

www.cmfoodconsulting.dk

Agro Food Park 13

At CM Food Consulting, we turn food safety and quality into a competitive advantage. We help small and medium-sized food companies succeed with certifications, audits, and food safety and quality control, cutting through unnecessary bureaucracy while keeping your focus where it belongs: On your products.

Food safety is non-negotiable, but it doesn't have to be complicated. Together, we create a simple and effective structure tailored to

your company and daily operations – one that works in practice, not just on paper. With CM Food Consulting, you get more than compliance, you get clarity, control, and confidence in your operations. CM Food Consulting – your trusted partner in the food industry.

Compass Group Denmark A/S

Søren Malberg

Operations Manager

Email: sormal@cg.dk

www.compass-group.dk

Agro Food Park 26

Compass Group Denmark is a provider of facility management, food service and cleaning. They serve a wide variety of companies across many different industries. Compass loves how food brings people together and strive towards delivering good, sustainable, and efficient food service based on the freshest, most innovative ideas.

Compass operates under the brands: Food & Co, Eurest Facility Services and ESS.

Steen Jørgensen

Director

Email: steen@compex.dk

www.compex.dk

Agro Food Park 15

Compex ApS is a trading, installation, and service company headquartered in Southern Jutland, with an additional office located in Agro Food Park in Aarhus.

Compex ApS imports, distributes, installs, and services high-quality products for professional dairy producers throughout Scandinavia..

Cordulus

John Smedegaard

CEO

Email: js@cordulus.com

www.cordulus.com

Agro Food Park 13

Cordulus is a weather technology company specialising in hyper-local weather data and AI-powered decision intelligence. Cordulus operates Northern Europe's largest weather station network and uses AI to make some of the world's most accurate weather forecasts, empowering organisations to act proactively, manage risk, and make smarter, data-driven decisions.

Cordulus has several weather stations placed around Agro Food Park as part of their ongoing research and development activities.

Dalgas

Christian Agerskov Munk

Press Manager

Email: camu@dalgas.com

www.dalgas.com

Agro Food Park 26

Dalgas is an international construction, trading, and service company with broad specialist competencies.

We are owned by Hedeselskabet, which has been making its mark on the landscape since 1866.

This means that we have over 150 years of experience working in the green sector.

Additionally, a portion of Hedeselskabet's profits goes back to nature.

Danish Technological Institute

Bodil Højland Lorentzen

Director

Email: bhl@teknologisk.dk

www.teknologisk.dk

Agro Food Park 15

Danish Technological Institute delivers solutions that create value for our customers. They develop, validate and document technological solutions and products through tests and trials – and continuously build and create knowledge through research and development activities via partnerships with Danish and international companies and research institutes.

At the Center of Agriculture and Digitalization, located in Agro Food Park, the team of

experts supports the green transition of the agricultural sector by bringing forward digital technologies and innovative solutions within e.g., field trials, emissions from agriculture, bio-solutions, plant biologicals, biodiversity, microbiology, soil health, CCUS, AI, precision farming, automatization, and robotics.

Decameal

Leander Hessner

CEO & Co-founder

Email: LH@decameal.com

www.decameal.com

Agro Food Park 13

Decameal transforms over populated shore crabs into sustainable protein and high value ingredients for animal feed and industrial use. Using a patent-pending extraction process, Decameal produces crab meal, protein concentrates, and shell-derived chitosan and astaxanthin – serving aquafeed, poultry, pet nutrition, and much more.

By sourcing from local coastal fisheries, Decameal helps restore marine biodiversity while replacing unsustainable soy and fishmeal.

Department of Food Science Aarhus University

Anne Louise Dannesboe Nielsen

Head of Department

Email: aln@food.au.dk www.food.au.dk

Agro Food Park 48 + 26 (meeting) + Auning

The Department of Food Science, Aarhus University, has leading capabilities and resources within research, extensive state-of-the-art research infrastructure, as well as active national and international networks, and is therefore able to make significant contributions to current food related global challenges.

They focus on dissemination, development, demonstration and implementation of research. Most of the research is carried out in collaboration with partners.

They house laboratories, teaching facilities, green houses, offices. Department of Food Science have an office in Agro Food Park 26 and a field research site in Auning.

Diet4Life

Jan Stagsted

CEO

Email: js@diet4life.dk

www.diet4life.dk

Agro Food Park 15

Diet4Life is an R&D company with a focus to develop, refine, and apply high-throughput screening methods for identification and characterization of food-derived molecules that initiate, enhance or otherwise modify cellular signals.

They develop identified molecules into potential nutritional supplements/food ingredients in our laboratory facilities in Agro Food Park.

DLBR P/S

Dorthe Laursen

Director

Email: drl@dlbr.dk

www.dlbr.dk

Agro Food Park 15

DLBR P/S, founded in 2024 by 16 Danish agricultural consultancy firms, is behind a number of financial IT solutions for small and medium-sized businesses. The flagship product is the accounting software Inter-Count, which automates accounting and uses AI for real-time data analysis, helping businesses make informed decisions.

Furthermore, DLBR P/S aims to help position and strengthen agricultural advising in Denmark, thereby supporting innovation within the agricultural sector.

DLBR Revision

Jens Faurholt

Owner & Accountant

Email: jens.faurholt@dlbr-revision.dk

www.dlbr-revision.dk

Agro Food Park 13

DLBR Revision is an independently approved audit limited company with 20 years of experience in auditing and advising small and medium-sized companies.

They have a great deal of knowledge and experience when it comes to auditing of accounts and consulting.

DLBR Revision is a part of Agro Food Park to use their network in the food and agricultural industry.

dol-sensors

Margit Skovbjerg Berner

R&D Manager

Email: msb@dol-sensors.com

www.dol-sensors.com

Agro Food Park 15

dol-sensors a/s is a global brand that innovates, designs, and produces capacitive and climate sensors and tailormade sensor solutions for improving livestock production and animal welfare.

dol-sensors is located in Agro Food Park to be close to other companies in the feed and farming industry. This gives them more opportunities to corporate and innovate new sensor solutions.

dsm-firmenich

Jan Heinz Hansen

Sales Director, Taste, Nordics

Email: Jan.hansen@dsm-firmenich.com

www.dsm-firmenich.com

Agro Food Park 13

dsm-firmenich 

dsm-firmenich seeks to tackle the tension between what society needs, what people individually want, and what the planet demands in the areas of nutrition, health, and beauty.

They work closely together with customers to create what is essential for life as well as desirable for consumers yet simultaneously more sustainable for the planet.

dsm-firmenich is poised to bring progress to life for billions of people around the world.

dsm-firmenich has their nordics department located in Agro Food Park.

Dynamics Team ApS

Thavarajah Sabanathan

CEO og Dynamics enterprise architect

Email: ts@dteam.dk

www.Dteam.dk

Agro Food Park 13

Dynamics Team ApS is a Danish IT consulting company specializing in Microsoft Dynamics 365 Finance & Operations, Power Platform, and Azure Integration Services. We help organizations design, implement, and optimize ERP solutions, integrations, and digital transformation initiatives.

Our expertise includes supply chain, warehouse management, retail, automation, system architecture, and enterprise integrations, delivering scalable and business-focused solutions across multiple industries.

Dyrlæger og Ko

Rune Friis Kristensen

Director

Email: rune@dyrlaegerogko.dk

www.dyrlaegerogko.dk

Agro Food Park 13

Dyrlæger & Ko is a veterinary corporation with 23 individual member practices and 130+ veterinarians all specialized in herd health, production and reproduction in cows. Our members are professional advisors and partners for the farmer with ambitions and a belief that healthy cows and healthy business are connected.

We work daily with more than 1,300 herds and thus providing veterinary services to more than 50 % of the total dairy cow-population in Denmark.

E-CIP

Finn Gregersen

Managing Director

Email: fgr@e-cip.com

www.ecipconcept.com

Agro Food Park xx

E-CIP Concept ApS is a startup company founded by experienced forces, with solid knowledge and experience within plant design, engineering, project management, commissioning and optimization of hygienic process plants, for example, for dairies and breweries.

Our wonder about the water consumption at CIP has led to the development of the E-CIP Concept's patented and optimized process, which can save significant amounts of water and wastewater during CIP cleaning (Cleaning in Place) of large food processing plants.

Farma Nordic ApS

Henrik Jensen

Sales Manager

Email: hj@farmanordic.com

www.farmanordic.com

Agro Food Park 15

Farma Nordic is involved in animal health and nutritional advisory for livestock farming in Scandinavia. Their products minimize the time spent diagnosing transition issues, strengthen the immunesystem of animals and keep the infection pressure at a low level. These products ensure optimal growth conditions for the animals, and prevents the potential for pathogen microorganisms.

This is achieved by ensuring a good daily hygiene in the stables and using systematically right nutrition products.

Fishlab

Kirsten Engell-Sørensen

CEO

Email: kes@fishlab.dk

www.fishlab.dk and www.hestelab.dk

Agro Food Park 15

Fishlab has many years of experience in aquatic environmental surveillance and innovation of aquaculture fish fry production. Fishlab has assignments for private and public institutions in Denmark and internationally actively takes part in innovative research projects and often act as a link between universities and the industry.

Fishlab is accredited by DANAK and has assignments for the Ministry of Environment of Denmark regarding environmental national surveillance of zooplankton, marine and freshwater benthic fauna communities, submerged freshwater plant investigations and more.

Fishlab performs semi-extensive and intensive fish larvae production and is currently developing a new kind of live feed for fish produced in aquaculture: ENCHYTRAeus. Hestelaboratoriet perform DANAK accredited analysis of horse parasites for approximately 70 veterinary clinics in Denmark.

Food & Bio Cluster Denmark

Sine Riisager

Head of Events, Networks & Outreach

Email: sri@foodbiocluster.dk

www.foodbiocluster.dk

Agro Food Park 15

Food & Bio Cluster Denmark is the national cluster organisation for the Danish food and bioresources. The cluster is a unifying platform for knowledge-based innovation, collaboration, and growth – for companies and knowledge institutions.

Food & Bio Cluster Denmark has its head-quarter in Agro Food Park 13, where it is responsible for Haystack, the incubator for startups.

Food & Co.

Søren Malberg

Operations Manager

Email: soren.malberg@foodandco.dk

www.foodandco.dk

Agro Food Park 13, 15, 26

Food & Co.

Food & Co. is one of the brands that Compass Group operates through. That is why everyone who works in one of Agro Food Parks three eateries carries this brand. Read more about Compass Group on page 24.

The three eateries in Agro Food Park:

Café in no. 13:

Barista coffee, cakes, open all day

Canteen in no. 15:

Largest, most traditional food

Canteen in no. 26:

Organic food, more greens

Foodjob Nordic

Martin Alsted

Senior Advisor

Email: mga@foodjobnordic.com

www.foodjobnordic.com

Agro Food Park 13

FOODJOB
NORDIC

Foodjob Nordic is a recruitment partner in the food industry. They offer Search & Selection solutions to clients in the Agro and Food Industries in the Nordics. Their services include: Recruitment of Managers and Specialists, Market analysis and business case for recruitment, Career counseling of candidates and Establishment of international and specialized networks in the Agro and Food industry.

The Foodjob Nordic headquarter is located in the center of the Danish Food Cluster in Agro Food Park.

FORCE Technology

Allan Grønkaer Kristensen

Director, Compliance & Product Testing

Email: agkn@forcetechnology.com

www.forcetechnology.com

Agro Food Park 13

FORCE Technology is a technology consulting and service company that works to create positive technological change and make the world more sustainable and safe. They do on-site inspections, measurement and data collection, and offer a comprehensive and unique infrastructure of facilities and laboratories for testing, calibration and analysis.

As a government-approved Research and Technology Organisation, they help companies get market access through their wide range of services, supplied from or via their Aarhus facilities in Agro Food Park.

Foreningen for Biodynamisk Jordbrug

Klaus Loehr-Petersen, Project Manager

Email: info@biodynamisk.dk

www.biodynamisk.dk

Agro Food Park 26

 Foreningen for
Biodynamisk Jordbrug

Association for Biodynamic Agriculture is the oldest organics organization in Denmark. They are part of the international network Biodynamic Federation Demeter International and certify farms and companies in Denmark according to the international Demeter Standards. They have close relations with Økologisk Landsforening regarding standpoints, politics and scientific aspects.

Association for Biodynamic Agriculture is now situated in Agro Food Park 26 together with the other companies in Agro Food Park working specifically with organic farming and food production.

FRDK - Foreningen for Reduceret jordbearbejdning i Danmark

Anne Kjærsgaard Krogh

Journalist & Coordinator

Email: akk@frdk.dk www.frdk.dk

Agro Food Park 13

FRDK is the association for reduced tillage in Denmark. Their purpose is to promote minimum tillage, no tillage and conservation agriculture. They give farmers reasons to manage their soil in a more sustainable way with less or no cultivation, use of cover crops and versatile crop rotation. All this is to keep a healthy financial position for the farmer, while maintaining productive soils for future generations.

FRDK has their secretariat located in Agro Food Park.

Frisør Pape

Trine Pape

Owner

Email: frisorpape@gmail.com

www.frisorpape.dk

Agro Food Park 15

Frisør Pape is a hair salon in Agro Food Park. The reason why it is here is to give the employees of Agro Food Park the freedom and flexibility to take a small break from work, while also crossing off a visit to the hairdresser from the to-do list. Trine Pape is ready to welcome you to a little respite in the busy everyday life.

A hair salon might not be a typical service provider to associate with a place like Agro Food Park, but they want to make it as convenient as possible to be part of Agro Food Park.

GLS-A

Stephan Vinther Petersen

Communications Consultant

Email: svp@gls-a.dk

www.gls-a.dk

Agro Food Park 13

GLS-A is the employers organization for companies in the green sector, e.g. farms and forests, agricultural contractors, garden nurseries and industries in the sector.

GLS-A generally supports its members within collective work agreements, labour law, working environment, education and HR. GLS-A has several membership benefits to offer and we welcome companies of all sizes.

GLS-A's business and head office is in Agro Food Park, because they cooperate with SEGES Innovation, Jordbrugets Uddannelser and other companies located in Agro Food Park.

Good Sodas

Peter Vinther

Founder

Email: peter@good-sodas.com

www.good-sodas.com

Agro Food Park 13

good sodas™

Good Sodas™ is a departure from conventional sodas. We combine organic fruits, plants, and herbs with fermentation to craft refreshingly real sodas. They're bursting with natural flavour and completely free from artificial ingredients and caffeine.

By using lactic acid bacteria (LAB fermentation), we create naturally complex flavours, gentle acidity, and a refreshing depth that sets us apart from conventional sodas.

The result is a new generation of sodas designed to complement social dining and align with a healthy, sustainable lifestyle.

grenke

Frederik Brandt

Teamleader, Sales

Email: fbrandt@grenke.dk

www.grenke.dk

Agro Food Park 26

grenke

grenke, that was established in Germany in 1978, is an international group with activities in 34 countries.

grenke offer customized leasing solutions for small and medium-sized businesses across a wide range of products.

Whether it is IT equipment, furniture, interior, machinery, or other equipment, grenke can provide support with flexible solutions.

grenke's Aarhus office is located in Agro Food Park 26.

Haystack

Elena Sørensen Skytte

Haystack Manager

Email: ess@foodbiocluster.dk

www.agrofoodpark.dk/haystack

Agro Food Park 13

Haystack is the sector specific incubator for agri and food start-ups in Agro Food Park. Food & Bio Cluster Denmark runs Haystack and offers advice within business development, financial planning and guidance in soft-funding. As an entrepreneur you also get access to investors and a large B2B network.

The advice is based on exactly your situation, so that you get the guidance that covers exactly your needs.

Healthy Cow

Rune Friis Kristensen

Director

Email: info@healthycow.dk

www.healthycow.dk

Agro Food Park 13

Healthy Cow Products Aps is a subsidiary of DyrLæger & Ko, a network of over 130 cattle vets across Denmark. Founded in 2023, Healthy Cow develops vet-driven products designed to support both veterinarians and farmers with trusted, effective solutions.

Based in Agro Food Park, we aim to innovate animal health with quality and credibility at the core.
